

Abdorrezza Vaezihir

Professor

College: Natural Science

Education			
Degree	Graduated in	Major	University
BSc	2001	Geology	University of Tabriz
MSc	2004	Hydrogeology	University of Shiraz
Ph.D	2011	Hydrogeology	University of Shiraz

Work Experience

- Manager of Earth Sciences Department in University of Tabriz, December 2013 to December 2015.
- Head of Industrial relation, Intellectual property and Entrepreneurship office in University of Tabriz, December 2015 to July 2018.
- President of East Azerbaijan Science and Technology Park, August 2018 to September 2022.
- Member of the Technology Committee of the Higher Education Development Council
- Plenipotentiary representative of the Minister of Science, Research and Technology in the special technology zone of Rabe Rashidi
- Founder and member of the board of directors of Rah Ab Azar Environment Company
- Founder and chairman of the board of directors of "Future Technology Transfer" Consortium
- Founder and chairman of the board of directors of "Future Agricultural Technology" Consortium

Awards

- The top researcher of the University of Tabriz in 2014, 2016, 2017, 2018, 2019, 2020, 2021 and 2022
- Holder of the first rank in the entrance exam of M.S. in all over of Iran.
- Developer of a new method for artificial recharge systems designing.

- Developer of a new method in hydrocarbon contaminant source determination in Groundwater
- The inventor of the device of identifier and crushing of plastic bottles using ultrasonic method

Course Topics

- Groundwater Contamination
- Fault zone hydrogeology
- Flow and Transport Modeling
- Karst and Fractured rock aquifers
- Environmental Pollution and Management

Journal Membership

Member of the Editorial Board of Hydrogeology Journal in University of Tabriz

Papers in Conferences

1. Contaminant source determination in Groundwater using TMCP and TMCH isomers ratio ,Recycling and Reuse ,2012 01 04.
2. Abdorreza Vaezihir , Fatemeh Safari , Hossein Javani , Nader Mazaheri ,The efficiency of open lime-zeolite channel system in treatment of Acid Mine Drainage (AMD) released from Sungun copper mine ,Acid Rock Drainage 2018 International Mine Water Association ,2018 09 10.
3. The Role of Natural Attenuation in the Decrease of Metal Concentration in a River Polluted by AMD Released from Sungun Mine (NW of Iran) ,Mine Water Association ,2022 11 06.
4. Abdorreza Vaezihir , Younes Jodat , Nader Mazaheri , Somayeh Aghili ,Evaluation of Leakage Potential from Tailing Dam of Sungun Copper Mine Using Hydrogeological Findings and Numerical Modelling ,International Mine Water Association ,2023 07 17.

Papers in Journals

1. Field scale modeling of BTEX released from multiple source zones,Bioremediation,pp. 156-176,2012 04 09.
2. Abdorreza Vaezihir et al.,Source Determination for Subsurface Light Non-Aqueous Phase Liquid (LNAPL) Using Trimethylcyclopentane and Trimethylcyclohexane Isomer Ratios,ENVIRONMENTAL FORENSICS,pp. 25-35,2013 02 26.
3. Abdorreza Vaezihir ,& Mehri Tabarmayeh,Total vulnerability estimation for the Tabriz aquifer (Iran) by combining a new model with DRASTIC,Environmental Earth Sciences,2015 04 12.
4. Abdorreza Vaezihir ,& Simozar Mohammadi,Groundwater Contamination Sourced from the Main Cemetery of Tabriz, Iran,Environmental Forensics,2016 04 02.
5. Hossein Rajabpour , Abdorreza Vaezihir , Mohammad Hasanpour Sedghi,The North Tabriz Fault, a barrier to groundwater flow in an alluvial aquifer northwest of Tabriz, Iran,Environmental Earth Sciences,2016 05 01.
6. Hossein Rajabpour ,& Abdorreza Vaezihir,Hydrogeological Studies to Identify the Trend of Concealed Section of the North Tabriz Fault (Iran),Groundwater,2016 10 01.
7. Hamidreza Heidari , Mohammad Zare , James Barker , Abdorreza Vaezihir,Lab scale experiment assessment of air sparging BTEX removal in fine grained aquifer of Shiraz Oil Refinery,Desalination and

Water Treatment,2017 01 01.

8. Somayeh Aghili , Abdorreza Vaezihir , Mohammadreza Hosseinzadeh,, Distribution and modeling of heavy metal pollution in the sediment and water mediums of Pakhir River, at the downstream of Sungun mine tailing dump, Iran,Environmental Earth Sciences,2018 02 01.
9. Evidence for distributed active strike-slip faulting in NW Iran: The Maragheh and Salmas fault zones,Tectonophysics,2018 06 02.
10. Abdorreza Vaezihir , Mohammadbagher Bayanlou , Zeinab Ahmadnezhad , Ghodrat Barzegari,Remediation of BTEX plume in a continuous flow model using zeolite-PRB,Contaminant Hydrology,2020 03 01.
11. Reza Azimi , Abdorreza Vaezihir , Robert Lenhard , Majid Hasanizadeh,Evaluation of LNAPL Behavior in Water Table Inter-Fluctuate Zone under Groundwater Drawdown Condition,Water,2020 08 20.
12. Zeinab Ahmadnezhad , Abdorreza Vaezihir , Christoph Schuth , Gholamreza Zarrini,Combination of zeolite barrier and bio sparging techniques to enhance efficiency of organic hydrocarbon remediation in a model of shallow groundwater,Chemosphere,2020 10 01.
13. Leila Khazini , Mehdi Eyvazpour , Abdorreza Vaezihir,Dispersion and modeling discussion of aerosol air pollution caused during mining and processing of open cast mines,Environmental Science and Technology,2021 03 10.

62. Mostafa Sobhanikia et al.,Evaluating Heavy Metals in Human Breast Milk: A Cross-Sectional Study from Mining and Agricultural Areas in Northwestern Iran,Biological Trace Element Research,2024 06 03.
63. Prediction of hydrocarbon migration and evaluation of remediation efficiency in groundwater (Bandar Abbas Refinery),Sustainable water resources management,2024 05 01.

1. Evaluation of land subsidence in Segzai foothills and Barkhor plains of Isfahan using satellite images and radar interferometry and providing aquifer subsidence management plan based on MODFLOW code results
2. Feasibility and optimal ways to reuse treated wastewater (Case Study: Tabriz refinery)
3. study on hydrogeological and hydrogeochemical characteristics of Kahriz plain the aquifer, Urmia
4. Evaluation of remediation methods of BTEX in the aquifer of Shiraz Refinery
5. Investigation on groundwater quality of Mahabad plain
6. Investigation on qualitative and quantitative effects of artificial recharge in emamzadeh Jafar plain on the aquifer
7. Simulating the behavior of oil pollution in the karst aquifer of Serkhon region and predicting the fate of pollutants under different remediation scenarios.
8. Simulating the transport of oil pollutants in the aquifer area of Shazand oil refinery and predicting the pollutant behavior
9. Investigating Asalouye coastal aquifer in Ariasol petrochemical area and assessing the risk of hydrocarbon contamination
10. Numerical modeling of pollution transfer for the feasibility of qualitative restoration of the aquifer in the downstream of Kaveh soda factory in Maragheh
11. Investigation on hydrogeochemistry and hydrogeology of Marand aquifer
12. Locating and designing the artificial recharge system of a pond for remediation the aquifer area of Kaveh Soda factory in Maragheh
13. Remediation of the aquifer contaminated with oil in the area of well number 7 of Shazand Petrochemical Complex
14. Monitoring and determination of oil contaminations in the soils of Bandar Abbas refinery
15. Remediation of the oil pollutants from contaminated soils in a pilot scale of Bandar Abbas refinery
16. Modeling the flow and transport of dissolved substances in the soil around well No. 7 of Shazand Petrochemical
17. Determining the source and extent of oil pollution in the catchment basin of the Karst spring of Serkhon
18. Investigation of aquifer pollution and design of groundwater monitoring network in Abadan oil refinery
19. Investigating the quantitative and qualitative characteristics of the aquifer and determining the polluted parts and the pollution potential in the Saveh Plain aquifer
20. Locating and designing the industrial and special production waste management site in East Azarbaijan province
21. Environmental Impact Assessment of Marand city
22. Investigation of environmental effects of khoy wastewater treatment plant to water resources of the region
23. Identification of oil pollutants in the aquifer of Tabriz railway station area and determination of contamination leakage source
24. Remediation of the saturated and unsaturated zone of the aquifer contaminated with petroleum substances in the area of Plume No. 11 of Bandar Abbas Oil Refinery
25. Designing an optimal groundwater-monitoring network in the area of Aryasol petrochemical complex
26. Identification of contaminated areas of Sazand Oil Refinery aquifer and determination of possible leakage sources
27. Design of an optimal groundwater pollution monitoring network using spatial statistics
28. Numerical modeling of pollution transport to evaluate possibility of qualitative restoration of aquifer aquifer in Kaveh Soda factory downstream, Maragheh, Iran
29. Evaluation of land subsidence in Kouhpayeh-Segzi and Isfahan-Borkhar plains of Isfahan using satellite imagery and interferometry radar and presentation of aquifer subsidence management

program based on MODFLOW code results

30. Datamining, designing and optimizing groundwater contamination monitoring network at the oil refineries' site
31. Hydrogeology and potential of groundwater resources in the hard and karst formation of West Azarbaijan province
32. Investigation on environmental contaminations caused by the dumping of toxic and heavy metals in soil resources of Zakhor alteration zones (Meshkinshar)
33. Investigation of the hydrogeological and hydrogeochemical characteristics of Mehrban plain
34. Investigation on potential of water resources in hard rocks
35. Investigation the impact of drought on groundwater quantity and quality of Marand plain
36. Investigation of affecting factors on the flow reduction of south rivers of Lake Urmia
37. Investigation of the hydrogeological and hydrogeochemical characteristics of Ivughli aquifer
38. Investigation of quantitative of underground water sources, the aquifer of Marand plain using numerical models
39. Investigation the quantitative and qualitative of Tuyserkhan plain aquifer
40. Investigation on hard rocks groundwater resources in Balikhlou Chai basin (Saien branch), Ardabil Province Iran
41. Treatment of acid mine drainage Pakhir valley, Sungun mine
42. Investigation on the contamination of aquifer of Shazand Refinery area by oil contamination and designing of a groundwater monitoring network for the site
43. Determination of the hydrogeological boundaries of catchment area and the Protection zone of Spring Cheleh khaneye olya (Soufian)
44. Investigation on the remediation of oil contaminants of Groundwater using active barriers in a laboratory model
45. Hydrogeology and evaluation of potential groundwater resources in the karstic and hard rock units of Moro Mountain_Soufian, East Azarbaijan
46. Investigation on heavy metals concentration in the alluvium of Sungun and Pakhir rivers bed in the Sungun mine area, East-Azarbaidjan, Iran
47. Hydrogeology and karst development model in Sarab and Siah gav springs of Abdanan, Ilam, Iran
48. Designing of groundwater monitoring network for Tabriz oil refinery and petrochemical complex
49. Numerical modeling of Benzene and MTBE transport in the groundwater probably released from Khoy oil storage tanks
50. Investigation Hydrocarbon contamination of soil and surface water of Shazand Refinery and optimization monitoring network for soil and surface water
51. Investigation on origin and mechanism of seepage from abutments of Agh chai earth dam, northwest of Iran
52. Probably contamination seepage through reservoir and abutment of tailing dam in the Sungun Cu–Mo mine, Iran
53. Investigation on contamination possible of nitrate in the aquifer plain of Tabriz
54. Investigation on the potential groundwater pollution of Tabriz main cemetery
55. Heavy metal contamination of soil and groundwater in and around the Sungun Cu–Mo mine, Iran
56. Investigation on the intrinsic and specific pollution potential of Tabriz Aquifer
57. Investigating the behavior of LNAPL in the area of groundwater level fluctuations under the influence of fast and slow fluctuations of the water table
58. Investigation of efficiency of PRBs with Zeolite filters and Biosparging composite methods in the remediation of BTEX from shallow groundwater at bench and field scales
59. Investigate the potential leak and flow model on the right abutment and dam building, Ghermi
60. Investigating the hydrogeological and hydrochemical characteristics of the Shazand plain aquifer and determining the vulnerable areas.
61. Hydrogeology and potential finding of groundwater resources in hard and karst formation units of

Kurdistan province.

62. Bioremediation of polluted soils of Tabriz Refinery on a pilot scale
63. Investigation of aquifer contamination due to possible leakage of wastewater of Kaveh Soda factory (Maragheh), identification of contamination source and determination of its extent of spread and presentation of control and remediation methods
64. Optimum determination of the best method from the technical and economic point of view for remediation the soil contaminated by petroleum substances
65. Determination of characteristics, extent and pollution source in well 7 of Shazand petrochemical complex
66. Investigation of the durability of chemical bomb compounds in the Sardasht area
67. Investigating on potential of self-remidiation of the Ilginina, Zarankab rivers and tailing dam in the vicinity of the Sungun Mine
68. Hydrogology and potential of groundwater resources available in hard and karstic formations of the Germi Chay river basin in Miyaneh, East Azarbaijan
69. Investigation on hydrogeological characteristics, North fault of Tabriz and its impact on nearby aquifers in the range of Soufiyan to Bostanabad
70. Investigation of Kermanshah refinery oil contamination of soil and soil monitoring network design
71. Assessment of environmental impact of Sungun copper cathode plant on soil and water environment
72. Monitoring and zoning AjiChay in the plain of Tabriz area using qualitative indicators
73. Investigation on the effects of subsidence and corrosion of west ethylene pipeline between Tabriz Petrochemical and Miyandoab
74. The identification of hydrocarbon contaminants in the aquifer of Bandar Abbas refinery and numerical modeling of contaminant transport
75. Investigation on oil contaminants aquifer of Kermanshah refinery and designing of groundwater monitoring network
76. Remediation of hydrocarbon contaminants of aquifer of Bandar Abass refinery in pilot- scale
77. Determination of privacy the quality and hydrogeological boundaries of Shahrchay river (Urmia)
