

Vahid Sari-Sarraf

Professor

College: Physical Education and Sport Sciences

Employment Information

Faculty/Department	Position/Rank	Employment Type	Cooperation Type	Grade
Dept. of Exercise Physiology, Faculty of Physical Education and Sport Sciences, University of Tabriz		Tenured	Full Time	29

Papers in Conferences

1. Heidarian, M.;Sari 9 Sarraf, V. and Vakili, J..month physical activity and fat mass reduction can regulate inflammatory markers associated with breast cancer in obese and overweight postmenopausal women.1st International Congress on Cancer Prevention.Zanjan.۲۰۲۴/۰۹/۱۸-۱۹.
2. Vahid Sari 9 Sarraf.Athletes' Profile.Biennial International Congress on New Challenges of Sports Science and Health on the Silk Road.Tabriz.۲۰۲۴/۰۲/۲۰-۲۱.
3. Sari 9 Sarraf,V; Alavi, P.A survey on the relationship between "happiness" and "personality" on male and female athletes and non-athletes students at Tabriz university.۱۰th World Congress of Sport Psychology.Skiathos, Hellas, Greece.۲۰۰۱.
4. Sari 9 Sarraf,V.Khamnei,S..Assessment of "RPE" as a psychophysics index in "GXT.1st Congress of sport Psychology.Tehran/Iran.۱۹۹۸.
5. Sari , Sarraf,V; Alavi , Namvar,P.;Nikoo , Kheslat,S ,Mucosal immunity after a soccer match ,8th Symposium of the International Society of Exercise and Immunology ,Sendai/ Japan ,25th - 27th 2007.
6. Sari , , Sarraf,V.; Mohammad , Zadeh,JS ,Stretching and celecoxib attenuate delayed-onset muscle soreness ,9th Symposium of International Society of Exercise and Immunology ,Tübingen, Germany ,21 Sept 2009 □ 23 Sept 2009.
7. Sari , Sarraf,V.;Amir , Sasan,R.;Motab,A.;Asgharpour , Arshad,M ,Effects of repeated bouts of prolonged cycling on salivary IgA,cortisol and total protein in young male elite cyclists ,4th Asia-Pacific conference on exercise and sport science and 8th international sport science conference ,Universiti Sains , Malaysia ,2009.
8. Sari ,& Sarraf,V; Doran, D; Atkinson,G; Reilly,T ,The effect of carbohydrate supplementation on salivary IgA to intermittent exercise in the heat ,The 2006 British Association of Sport and Exercise Sciences Conference ,University of Wolverhampton/UK ,2006.
9. Sari ,& Sarraf,V; Doran, D; Atkinson,G; Reilly,T ,Effects of repeated bouts of soccer-specific

intermittent exercise on salivary IgA and cortisol ,11th Annual Congress of the European College of Sport Science ,Lausanne/Switzerland ,2006.

10. Sari ,& Sarraf,V; Doran, D; Atkinson,G; Reilly,T ,A comparison of salivary IgA responses to intermittent and continuous exercise ,The 2005 British Association of Sport and Exercise Sciences Conference, Loughborough University/UK ,Loughborough University/UK ,2005 4-7 Sept.
11. Sari ,& Sarraf,V; Doran, D; Atkinson,G; Reilly,T. ,Salivary cortisol and related responses to prolonged exercise ,13th Iranian Researchers Conference in Europe, Leeds University/UK ,Leeds University/UK ,2005.
12. Alavi , Namvar, P ;Sari , Sarraf,V ,Personality characteristics of the female athletes and non-athletes ,13th Iranian Researchers Conference in Europe, Leeds University/UK ,Leeds University/UK ,2005.
13. Sari ,& Sarraf,V ,Immunity from or susceptibility to upper respiratory tract infection ,12th Iranian Researchers Conference in Europe, Manchester, UK ,Manchester, UK ,2004.
14. Sari ,& Sarraf,V; Amirsasan,R ,Assessment of RBC indexes after high intensity exercise in young male athletes ,The 2nd International Congress on Physical Education & Sport Sciences ,South Korea ,2000.
15. Sari ,& Sarraf, V; Nikbakht, H.; Namazizadeh, M ,Rating of Perceived Exertion in adult's males ,EGREPA Congress ,Bruxelles, Belgium ,2000.
16. Sari ,& Sarraf,V.Khamnei,S; Arasteh, A ,Carotid baroreflex responsiveness in young male athletes ,The 2nd International Congress on Physical Education & Sport Sciences ,South Korea ,2000.
17. Sari ,& Sarraf,V.Khamnei,S ,Sensitivity of the carotid baroreceptors in athletes ,13th Asian Games Scientific Congress ,Bangkok, Thailand ,1998 30Nov.-3Dec.

Thesis

1. Evaluation of knowledge, attitude, nutritional performance and health of 10-12 years old male athletes in Tabriz city , Mr. Behzad Abdollahzadeh , 2025/2/2
2. The effect of eight weeks high intensity training on some clinical systemic inflammatory and platelet indices in normal weight and obese women , Miss Marjan Fakhri Kaleybar , 2025/2/2
3. Effects of 12 weeks chess based training in time pressure on electroencephalography indices and skills in chess players , Mr. Asghar Golizadeh , 2024/2/19
4. The effect of sportwear on hemorheological, inflammatory, muscle damage and psychophysical factors in female futsal players subsequent of a futsal matchh , Mrs. Kosar Pourabbas , 2024/1/17
5. The effect of four-week high intensity interval training with lycopene supplementation on some salivary oxidative stress indices in obese adolescence boys , Mr. Mohammad Azimi , 2023/9/21
6. The effects of 12 weeks concurrent training on genes expression of inflammatory/anti-inflammatory mediators PBMC in postmenopausal women with breast cancer riskC , Miss Maryam Heidarian , 2023/9/20
7. The effect of six weeks pilates and functional training on physical fitness factors in inactive adolescent girls , Miss Vahideh HajiMohammadi , 2023/9/17
8. Evaluation of the physical activity and nutrition status of female high school students in Tabriz during the corona virus epidemic , Mrs. Khadijeh Farrokhi , 2022/9/28
9. The acute and chronic effect of magnesium supplementation on electromyographic indices of muscle fatigue and some indices of anaerobic function subsequent of intense exercise in active women , Miss Maedeh Ebadi , 2022/9/20
10. The effect of short and long-term magnesium supplementation on anaerobic power, pain perception, muscle damage indices and fatigue in active women , Miss Mahsa Abbasi-Mehr , 2022/9/6
11. The effect of women futsal sport wear in matches on hydration status, performance and psychophysical indices , Miss Zahra Ahmadi , 2022/2/15
12. Comparison of eight weeks jump roping and dance on body composition and athletic performance in overweight teenager girls , Mrs. Arezu Ghodrati , 2021/9/28

13. The effect of six weeks of high intensity functional training with different frequency of sessions on performance indices in inactive young girls , Miss Fatemeh Nafeh , 2021/9/21
14. The comparison of four weeks pomegranate extract supplementation on some oxidative stress and functional indices in aerobic training in young active males , Miss Neda Alizadeh Khameneh , 2021/9/7
15. Effect of sport drink consumption in pre and post simulated competition on fast recovery in female kickboxer , , Miss Fatemeh Baghban , 2021/2/22
16. The effect of four-week cross-fir exercises along with education and control diet on body composition, lipid profile and performance indices in overweight and obese males , Mr. Hesam Donyaparast , 2021/2/17
17. The effect of six weeks Loughborough intermittent shuttle test (LIST) training on some muscle damage indices, aerobic and anaerobic power in female soccer players , Mrs. Masoumeh Rostami Rad , 2021/2/16
18. Effect of four weeks pilates training and chia seed supplementation with intermittent caloric restriction (ICR) on some oxidative stress biomarkers, body composition and balance in overweight inactive middle aged women , Miss Maryam Mastoori , 2021/2/15
19. The effects of high intensity interval training (HIIT) and continuous training with intermittent calorie restriction on expression of miR-146a and IL-6 and TNF α concentration in obese female , Mrs. Seyyede Farideh Iraqi , 2020/10/20
20. Effect of 8-week cardio-pilates training with D3 supplementation on performance, body composition and cardiovascular parameters in overweight and obese women with hypertension , Mrs. Susan Abolghasemi Fakhri , 2020/9/15
21. Effect of six weeks HIIT and chia supplementation on Alpha TNF and MDA content in soleus muscle of model type 2 diabetes wistar rats , Miss Seyyede Ayda Baghzar , 2020/1/20
22. Effect of eight weeks high intensity interval training (HIIT) and continuous training combined with intermittent calorie restriction (ICR) on inflammatory indices and lipid profiles in overweight women , Miss Nazila Parnian , 2019/2/19
23. The effect of 4 weeks fish oil supplementation on some inflammation-induced peripheral fatigue factors subsequent and recovery after exhaustive exercise in healthy men , Mrs. Roya Zekri , 2018/11/20
24. Effect of 8 weeks aerobic training and one session progressive exercise on some appetite indices in obese and overweight women , Mrs. Akram Ameghani , 2018/9/18
25. The effect of 8 weeks endurance, resistance and concurrent training on irisin, some glycemic indices and the visceral fat to muscle mass ratio on sedentary obese women , Mrs. Zahra Niknam , 2018/4/17
26. The effect of two different hydration methods on physiological soccer referees response subsequent dynamic yo-yo test , Mr. Farzad Nabizadeh , 2018/2/27
27. The effect of two month rope jump training with two different intensity on body composition, aerobic power and blood pressure of elementary overweight male non-athlete students , Mr. Kiyomars Jhaleh-Shabanlu , 2018/2/26
28. Effect of exercise and nutritional status on osteoporosis in postmenopausal women , Mrs. Leila Nasiri , 2018/2/21
29. Comparison of serum levels of bone osteocalcin and alkaline phosphatase in postmenopausal mountaineers and swimmers women , Mr. Javad Naemi , 2018/2/20
30. The effect of once saffron supplementation on some muscle damage and performance indices in men subsequent of a volleyball match , Mr. Omid Mirzaei , 2017/9/20
31. Effect of four weeks concurrent training and flaxseed supplementation on body composition, lipid profile and cortisol and insulin hormones in overweight women , Miss Fatemeh Halalkhor , 2017/9/5
32. The effects of eight weeks aerobic training and exhaustive exercise on some salivary and blood antioxidant indices in young men , Mr. Hamidreza Zolfi , 2017/2/21
33. The effect of short term ginger supplementation on performance indicators subsequent DOMS due

- to resistance training in physical education students , Mr. Babak Mohammadi , 2017/1/17
34. Effect of short and long-term creatine supplementation with 8 weeks resistance training on apoptosis markers in middle aged men , Mr. Hassan Faraji , 2016/11/15
 35. The effects of breakfast consumption on body composition and physical fitness in 10-12 years old students in Shabestar city , Mr. Mehdi Shori , 2016/9/27
 36. The effects of two PAP intensity with different resting time period on performance and muscle soreness in taekwondo male athletes , Mr. Behzad Khodaei , 2016/9/26
 37. The effects of static, dynamic and specific warm-up on some performance indices in female volleyball players , Miss Rogayeh Asgharinaia , 2016/2/15
 38. The relationship between 2D/4D with handgrip strength, testosterone and cortisol hormones in volleyball players and swimmers , Mr. Heydar Javadi , 2016/1/19
 39. Time of day effect on the test results of the evaluation of physical education in female students , Miss Arefeh Mahmoudzadeh , 2015/2/17
 40. Effect of two HIIT and aerobic training methods on FVC, FEV1, FEV1/FVC, O2 pluse max and body composition in overweight young female , Miss Elham Ahmadi , 2014/12/15
 41. The effects of four weeks resistance training on quality of kata performance and some physical fitness factors in elite young male karateka , Mr. Mohammad Husein Remadi , 2014/9/29
 42. The effect of quadriceps muscle fatigue following concentric and eccentric activities on the force sensation in knee joint , Mr. Hasan Hamidi , 2013/12/24
 43. Comparison of acute ingestion of carbohydrate and L-carnitine on exhaustion time and HR variability during recovery from GX in male college athletes , 2013/9/17
 44. Effects of acute and chronic pyramidal and reverse-pyramidal resistance training on cellular damage and growth markers in non-athlete male adolescents , Mr. Sardar Abbasi , 2013/7/16
 45. The effects of aerobic exercise and short-term grape seed extract supplementation on some oxidative stress indices in men , Mr. Hamidreza Zolfi , 2012/12/18
 46. Salivary IgA, cortisol, alpha-amylase and total protein in responses to two consecutive soccer game in females , Miss Khadijeh Rushdi-Niri , 2012/9/25
 47. Effects of time of day and exercise on the acute responses of salivary IgA, cortisol, alpha-amylase and total protein in female swimmers , Miss Zakiye Tavakoli , 2012/9/4
 48. Effects of two month military training on salivary IgA, cortisol and total protein in athlete and non-athlete soldiers , Mr. Hojat Sharifi , 2011/12/27
 49. Time of day effects on some physical fitness factors in female athlete and non-athlete , Miss Farideh Iragi , 2011/12/22
 50. The effects of Vitamin C and E supplementation on oxidative stress defensive indices and lipid peroxidation after anaerobic activity in speed skaters teenager , Mr. Hassan Zolfeghari , 2011/9/20
 51. The comparison acute effect of caffeine and ibuprofen on RM, RPE and PPI in resistance exercise in athletes men , Mr. Hojjatollah Barghbani , 2011/9/19
 52. Association between heart rate recovery after exercises with some obesity indices in 15-18 years old male students , Mr. Mohammad Rezaei , 2011/9/15
 53. Effect of combind continues and interval aerobic training on body composition, aerobic power, muscular strength and some serum biochemistry and hemodynamic indices males with metabolic syndrome , Mr. Hamid Esmaeili , 2010/9/16
 54. Relationship between strength and power as well as testosteron/cortisol ratio in male weightlifters , Miss Negin Farhangi , 2010/9/15
 55. Effects of two futsal matches during two consequence days on salivary IgA, cortisol and total protein in female athletes , Miss Zeinab Baba-zadeh , 2009/9/17
 56. The effect of satic muscular stretching and celecoxib on some inflammatory indices of DOMS in young male athletes after downhill runing , Mr. Jafar-Sadegh Mohammad-zadeh , 2008/10/22
 57. ...The effects of soccer match on salivary IgA , Mr. Ayob Mehdivand , 2008/10/15
 58. ...The effects of cocoa consumption on coagulation , Mr. Mehdi Soleimani , 2008/9/17

59. Effects of two endurance exercise bouts during two consequence days on salivary IgA, cortisol and total protein in young elite cyclists . Mr. Masoud Asgharpour-Arshad , 2008/9/10
60. Effects of 10 weeks jumping rope training on physical fitness in high school male non-athletes students . Mr. Hojat Abdollahi
61. The effects of Futsal match on salivary IgA, cortisol, totak protein and alpha amylase in female Futsal players . Miss Zahra Abdi
